

## Experience the power of Azure. On us!

If you're thinking about moving to the cloud but you're not sure how to make the leap, Zones and Microsoft have the perfect solution to help you move forward.

Our Azure Access program gives qualified business entities access to **\$10,000 in Azure credits for two full months – FREE.**

That gives you time to identify workloads and run a proof-of-concept in Azure – with minimal impact on your budget. Or, if you've been looking at the benefits of a hybrid infrastructure, this is your opportunity to try it out virtually risk free.

And as a Microsoft Cloud Solution Provider, Zones can also provide the all the expertise and resources you need to establish your presence in the Microsoft Cloud:

- > Get 24/7 admin support so you can focus on other critical day-to-day responsibilities.
- > Reduce expenses and eliminate overlapping services by architecting a public, private or hybrid cloud solution.
- > Improve agility and scalability with public cloud, private cloud, and IT services coordinated from a single provider who understands your business's needs

For qualification details and complete information on our business-friendly Azure Access program, contact your Zones account executive or call 800.408.ZONES now.
